Re: Fund Request for WGYF

In our first business meeting of the week at Pacific Yearly Meeting the Young Friends were joined by Lauren Mitchell, a representative of the World Gathering of Young Friends planning committee. With her came the possibility of attending a gathering of young friends from around the world with different Quaker backgrounds but of the same origins, in the summer of 2005. Many of our Young Friends were excited by the prospect of meeting other young friends and exchanging history and ideas for our future. We come to the Yearly Meeting requesting your help and support in the growth of our Young Friends. We are requesting to be able to send two representatives of our Yearly Meeting, fully aided, to this gathering in England, which may come to the amount of approximately two-thousand dollars per person. We would also like to send others in our community who are interested in sharing their presence in this building of community of Young Friends from across boundaries of cultures and practice by setting up a donation fund to be allotted as scholarships.

Respectfully,
PYM Young Friends
